Offshore Wind Supply Chain Forum & *Summer Social*

2 EVENTS, 1 DAY

SPONSORSHIP PACKAGE

HALIFAX | NOVA SCOTIA

THURSDAY AUGUST 15, 2024

EVENT OVERVIEW

Join Marine Renewables Canada for our annual summer event, taking place on August 15th in Halifax & Dartmouth, Nova Scotia! This year, attendees can benefit from two events in one day – an afternoon offshore wind supply chain forum followed by an evening summer social and lobster dinner.

Offshore Wind Supply Chain Forum

With Atlantic Canada in the early phases of establishing an offshore wind industry, it is the **optimal time to focus on building a strong and competitive supply chain to support industry needs**. Achieving our offshore wind ambitions will require a concerted and collaborative effort among many entities. Canada has the advantage of many experienced suppliers that have worked in offshore and marine industries for decades, with some already working in the international offshore wind market. It's time to capitalize on those strengths and establish a path forward to growing a sustainable offshore wind industry.

Summer Social & Lobster Dinner on the Lake

MRC's Summer Social on the Lake is a perfect opportunity to catch up with colleagues and make new connections. The evening will be full of networking, lobster (or chicken), a live band, and fun activities by the lake!

Event schedule at a glance:

Please review the below opportunities and contact Amanda White at 902.717.0716 or amanda@marinerenewables.ca
